More about me at my portfolio fernandokoji.dev

PREVIOUS EXPERIENCE

- **ANALYST PROGRAMMER** **Mutant-Vivo**
May - Sep 2022 (4 Months)
Development and maintenance of the use case dialogs in the context of customer service via WhatsApp for Aura, VIVO's AI. At this job, I've acquired knowledge of Agile Methodologies, Typescript, use of javascript classes and npm packages development.
- **WEB DEVELOPER** **Rifaisso**
Mar - May 2022 (3 Months)
Development of the complete API for Rifaisso, a system to sell and organise raffles online, made with Typescript using AdonisJS.
- **WEB DEVELOPER** **TeachLearn**
Jan - Jul 2021 (6 Months)
Development of TeachLearn's first commercial versions. It is a social media for teachers and teaching platform. Made with VueJs using Quasar and NodeJS using ExpressJS.
- **WEB DEVELOPER** **Dourasoft**
Nov 2019 - Apr 2020 (5 Months)
Development of a Whatsapp bot made with Java and selenium, and a SQL script for the database migration from their desktop legacy system to their current web app system.
- **WEB DEVELOPER** **Dourasoft**
Feb - Jun 2019 (5 Months)
Development and integration of an OCR functionality, made with AWS Textract, into the company's commercialised system. Besides that, I've learned VueJS using Quasar, PHP using CakePHP, PostgreSQL, Google Cloud Services and Firebase.

EDUCATION / CERTIFICATION

- 2023 - Current | Diploma of Information Technology
ECA College - Australia
- 2022 | Certified Cloud Practitioner (CCP)
Amazon Web Services (AWS)
- 2015 - 2021 | Bachelor in Computer Engineering
UFGD - Brazil
